

Product Benefits

Kedel's mixed plastic decking boards can be cut, screwed, nailed and bolted just like wood but offer the following advantages:

- Stronger and more durable than wood
- Maintenance free
- Uniform dimensions
- Consistent quality - no knots, splits or shakes
- Less flammable than wood
- UV and insect resistant
- Impervious to water
- Resistant to algae
- Will not crack, chip, split or break

Innovative Recycling Technology

Kedel's products are produced entirely from mixed waste plastics that would otherwise have been destined for landfill.

- 100% recycled
- 100% recyclable
- Tonne for tonne, recycled plastic produces 1.66 tonnes less CO2 during manufacture compared to virgin plastic

British technology using British plastic waste for British projects.
